

1967-77 FORD TRUCK CHASSIS HARNESSES

Designed to be used on 1967-77 Ford F-Series trucks, these new Painless harnesses are the most up-to-date and easiest to install wiring harnesses for these popular trucks.

These kits are a must for the serious restorer. Each 14-circuit kit contains detailed instruction for each year of vehicle covered and are designed using original Ford color codes. They include many preterminated wires for convenience and ease of install. Choose from either the 10118 which includes switches for headlights, ignition, dimmer, wiper and brakes or the 10117 which has no switches and is intended for more custom applications.

#10117 - 1967-77 Ford Truck
Harness without switches

#10118 - 1967-77 Ford Truck
Harness with switches

Each harness has six major sections:

ENGINE SECTION
